11. American Auditory Society.

The list of approved continuing education will be updated as requests are made. Please check this list to see if a class you are interested in has already been approved. Once it's on the list, you do not need to request approval.

Preapproval of courses is to your benefit as it will make your relicensure process go more smoothly and quickly. If you submit a continuing education request at least a week before a class is held, we will try to let you know if it is approved. If there is a registration deadline, you may want to submit your request a week or two before the deadline.

Please note: *Whether a course is on the list or not and whether it is ASHA, AAA, or IHS approved or not, you will always need to attach proof of attendance (i.e., certificate of completion, registration receipt, etc.) when you submit your renewal form. If a course is not listed, you will also need to provide proof of number of hours completed, date(s) you took the course, and proof of ASHA, AAA, or IHS approval.*

The continuing education request form is also on the internet at: www.ndsbe.com/
